

SPEEDJET 1.8

ECO SOLVENT SIDE FORMAT PRINTER

DRAFT MODE	2 PASS	45m ² /h
PRODUCTION MODE	4 PASS	32m ² /h
PHOTO MODE	6 PASS	26m ² /h
HYPERFINE MODE	8 PASS	18m ² /h

Function and Features

- Originally imported silent guide, more stable, longer working life, lower noise.
- Imported dual direction motor, high-resolution driver liner encoder, higher resolution, fewer errors in length, more stable running.
- USB part more convenient, highest speed 480M/s, and it offers network interface for printing in places.
- EPSON DX5 cartridge technology 8x180 nozzles, achieving 1440 DPI high resolution, fewer errors in length, more stable running.
- VSDT variable dot technology, smallest droplet is 3.5pl, largest droplet is 27pl, achieving the prefect printing.
- Unique planar feather function & wave feather function, eliminating BANDING DURING PRINTING, achieving excellent quality and improvement.
- Multi-mode print option, common production mod can reach to high-speed of 45m²/h, faster and higher resolution.
- Own the most advance EPSON intelligent cleaning and moisturizing device, providing save convenience printhead cleaning and maintaining function, easy to printing.
- Equipped with 4 king-size-capacity ink reservoir, printing large format and vivid picture at great speed.
- Industry recommend quick drying ink, realizing quick drying while output, not easy to get damp and clamminess.

Technical Parameters

Printhead	EPSON DX5 micro piezo and stainless steel cartridge.	Resolution	1440 DPI
Number of printhead	2	Number of nozzles	1440(8ji80)
Colors	CMYK	Color gamut	16.7 million
Media width	1800mm	Printing width	1800mm
Printing speed	2 PASS 4 PASS 6 PASS 8 PASS	45m ² /h 32m ² /h 26m ² /h 18m ² /h	
Ink types	Water-based; solvent-based; thermal transfer	Color management	ICC based; density & curves adjustment
RIP software	Maintop5.3/PHOTOPRINT 10/WSATCH/ONYX 10	Computer system	Windows xp & Win7
interface	USB 2.0	Power supply	50/60HZ, 220, 10A
Heating system	three-section-heating: pre-heater, bed-heater and rear-heater	File forms	Bmp, tif, jpg, etc
Feeding method	Roll to roll; leaf	Humidity	4%----70%
Dimension	LxWxH: 2600x700x500mm	weight	240 KG
